Professional Summary

Results-driven Full stack Developer with hands-on experience in web development and software project support. Skilled in Django, JavaScript, and usability testing with a strong foundation in team collaboration and problem-solving. Proven ability to enhance user experience and contribute effectively to development teams.

Experience

Web Developer - Intern Elite Software's Pune

📅 June 2024 – September 2024

- Assisted in front-end and back-end tasks across multiple client websites using Django and JavaScript.
- Conducted usability testing and implemented UI improvements, enhancing overall user experience.
- Collaborated with senior developers to streamline workflows, reducing task turnaround time by 15%.
- Contributed to debugging and feature testing, ensuring higher deployment quality and fewer post-launch issues.
- Technologies Used:** Python, Django, TypeScript, AWS, PostgreSQL, Bootstrap, HTML, CSS etc.

Technical Skill

Programming Languages

- Java, C, PHP, Python, JavaScript, SQL

Frameworks & Libraries

- Django, React.js, Node.js

Web Technologies

- HTML, CSS, Rest APIs, WebSocket

Databases

- PostgreSQL, MongoDB

Tools

- Git, GitHub, VS Code

Core Concepts

- OOP, Full Stack Development, Usability Testing

Soft Skills & Hobbies

Soft Skills

- Team Collaboration
- Leadership & Event Management
- Adaptability & Creative Problem-Solving
- Communication & Critical Thinking
- Decision Making Under Pressure

Hobbies

- Biking, Photography, Cooking, Foreign Language, Travelling, Pet Care, Music.

Projects

1. TotoCare - Pet Care Management Platform

- Built TotoCare using PHP and PostgreSQL as my final year college project - a full-featured platform with role-based dashboards for pet parents, vets, groomers, and boarders.
- It included bookings, adoptions, and e-commerce and was awarded the highest marks and supervisor praise for its real-world application and clean execution.

2. Personal Portfolio Website

- Developed a responsive portfolio website using Django (Python) and PostgreSQL to showcase my projects, blog entries, and contact information.
- It includes backend integration for form handling and email functionality, and was built to reflect both technical skills and clear design principles.

Education
